*Catch the Current!*

A Program of  HRDC

## AUGUST NEWS

July was a great month for Streamline! We have been busy building and installing bus stop parklets, finalizing the first draft of the Redesign Streamline 2020 report, and ensuring proper cleaning procedures are in place as we prepare for an increase in ridership in the upcoming weeks.

### Redesign Streamline 2020 Service Recommendations Are HERE!

The Redesign Streamline preliminary service recommendations are here! Our consultant has released a service short-term service plan for Streamline. A few notes on this plan:

- All of the routes shown in the attached map can be implemented with our existing funding sources, except for the route shown in green.
- The route shown in green will be implemented if we can secure a small amount of additional funding prior to fall 2021.

Our consultant will be hosting a virtual meeting on **Thursday, August 27th from 3:00 p.m. - 4:00 p.m.** for Friends of Streamline members who would like to ask questions and learn more about these service recommendations. This meeting will also be your opportunity to give feedback on the preliminary service recommendations! We'll send out the Zoom details a few days before the meeting. We will also open up a form on our website soon where you can also give feedback on the plan!

### Bus Stop Parklets

We want to give a big shout out to Matt Matsen and the folks at the Western Transportation Institute who volunteered their time to create some bus stop parklets for Streamline. We are so excited about this new rider infrastructure!
