

# Friends of *Streamline*

*Catch the Current!*

A Program of  HRDC

## October Happenings

September was a busy month for Streamline! Throughout the month, we held 4 public meetings and received over 50 public comments on our website for the Redesign Streamline 2020 preliminary route proposal. We also met with the Streamline drivers to discuss their thoughts on the preliminary design. We want to give a big thanks to all of the Friends of Streamline members who participated in these discussions.

## Next Steps for Redesign Streamline 2020

Now that we've received your feedback, we are hard at work reviewing public comment, making changes, and preparing the final redesign recommendations. The final report will be released in November! In addition to finalizing the new routes, we are also in the process of determining the new bus stop locations that will be associated with the new routes. Once these bus stop locations are finalized, we will send them out to our Friends of Streamline group! If you have any specific suggestions on where stops should be located along the proposed routes, please email us!

## Last Call for Volunteers

On **Saturday, October 10th from 9 a.m. - 11 a.m.**, we will be painting doors for our upcoming doors to transit pop up demonstration, and we need a few more people to join us! If you can spare a few hours of your Saturday, please sign up to volunteer at the HRDC Galaxy website (link below) or email [vpalmer@thehrdc.org](mailto:vpalmer@thehrdc.org).

All the details will be emailed to those who officially sign up on the website.
